Procedure for examiners in the Thesis Portal of the TUM School of Life Sciences

Dear examiners,

there are two functions for which you can use the portal. These are explained below under **1. Confirmation of your students' theses registration** and **2. Thesis download**.

If you would like to use the portal as a registered user, please log in first - the steps for this can be found below. However, you can also continue using the links in the emails sent to you (see points 1 and 2 for explanations), so it is not absolutely necessary to log in to the portal.
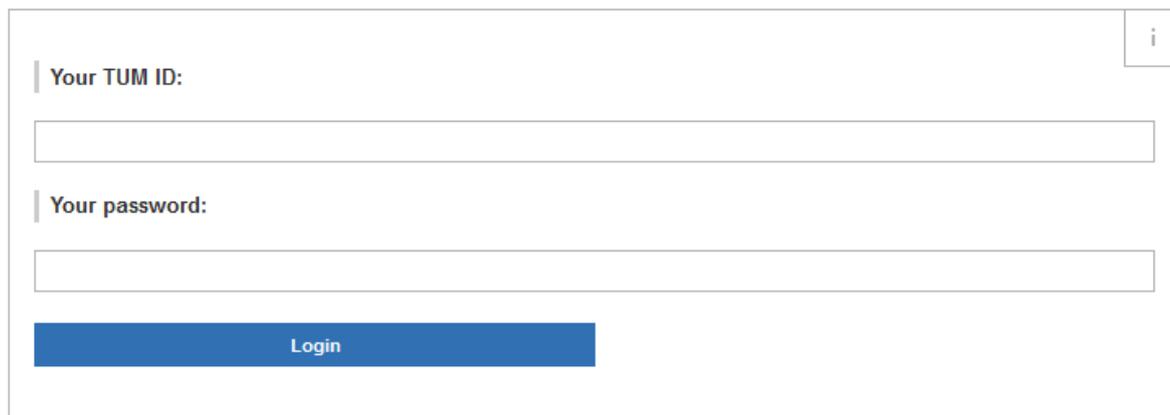

Registration in the portal/overview

Please log in to the portal (https://webportale.ls.tum.de/thesis/index.php?l=en) with your TUM ID and your TUM password.

This allows you to view the theses you supervise(d), clearly arranged according to their processing status, and to download the finished theses at any time.

The portal does not prevent students from the obligation to hand in a printed and signed copy to you.

There is a time limit of about 6 to 8 weeks for the evaluation of the thesis.

The notification of the grade is carried out using the evaluation form, which you can download from our website https://www.ls.tum.de/en/ls/studies/graduation/theses-certificates/#c5885.

Please send it directly to the address given on the form. The grades will then be entered in TUMonline by the Examination Affairs team.

If you have any questions or problems regarding the Thesis Portal, please contact thesis.co@ls.tum.de.
